I. GENERAL RULES AND REGULATIONS

- These Rules and Regulations are in addition to the Rules of the Kentucky Public Service Commission, Kentucky Administrative Regulations and/or Kentucky Revised Statutes.
- 2. Each customer receiving sewer service from the District shall be required to sign the District's standard application for sewer service before service is supplied by the District.
- 3. The District may refuse to connect service for the violation of any of its rules or regulations or for the violation of any of the provisions of the schedule of rates and charges of Kentucky Administrative Regulations relating to the receipt of sanitary sewer services by the customer. The District may discontinue service to a customer for the theft of sewer service or the appearance of theft devices on the premises of customer. The discontinuation of service by the District for any cause as stated in these Rules and Regulations does not release the customer from their obligation to the District for the payment of minimum bills as specified in the District's Tariff.
- 4. Bills for sanitary sewer service will be rendered monthly and shall be paid within ten days from the date of the bill at the office of the District. Failure to receive a bill will not release the customer from payment obligations. Should bills not be paid within the ten day period, the District may, at any time thereafter and upon five days written notice to the customer, discontinue service. Bills paid on or before the final date of payment shall be payable at the net rate. Should the final day for payment of a bill fall on a Sunday or holiday, the day next following the final date will be held as a day of grace for delivery of payment.
- 5. The point of delivery is the point, as designated by the District, on a customer's premises where the District's sewer is tied to the customer's service line. All sewer lines beyond this point of delivery shall be provided and maintained by the customer at no expense to the District.

- 6. Customers who have fulfilled their contract terms and wish to discontinue service must give the District at least ten days written notice to that effect unless otherwise agreed by the District. Notice to discontinue service prior to expiration of the customer's contract with the District will not relieve the customer of any minimum or guaranteed payment under any contract or rate.
- It is understood that the applicant will, at its own expense and cost, pay the actual 7. physical connection from his line to the District's transmission line. The applicant's service line is to be installed only by a plumber duly licensed as required by the State of Kentucky, and the work must be inspected by the authorized plumbing inspector or any other authorized representative of the District before any connections are backfilled. The customer and/or installer making a connection to the sewer shall hold the District harmless from any loss or damage that may directly or indirectly be occasioned by connecting to the District's system. A test tee must be installed by the applicant to the point of connecting to the District's sanitary sewer. The applicant must agree to permit the District to lay, maintain, repair or remove a sewer line which is the property of the District located on the applicant's property with the right of ingress and egress onto applicant's property. The District's duly authorized representative and/or duly authorized employee, bearing proper credentials and identification, shall be permitted to enter upon all properties of the customer for the purpose of inspection, observation, measurement, sampling, and testing in accordance with the provisions of these Rules and Regulations.
- 8. District employees and representatives shall not be responsible for making connections for a customer to the District's sewer system. All such cost of installation shall be borne by the customer. All connections and installations to the District's sanitary sewer system shall be made in conformity with all specifications as may from time to time be adopted by the District. All materials used in making such connections shall be those approved by the District as set forth in its specifications.

- Only domestic sewage is allowed to be discharged into the District's sewer system. 9. Storm drains, roof drains, surface flow and the like shall not be permitted to be discharged into the sewer system.
- 10. Sewer stations, restaurants and other businesses and/or entities who discharge grease, oil or other foreign substances shall be required to install approved grease and oil traps or other acceptable methods of removal before the sewage enters the District's sewer system.
- The schedule of Rules and Regulations is a part of all contracts for receiving sewer service from the District and applies to all service received from the District, whether the service is based upon contract, agreement, signed application or otherwise. A copy of the schedule together with a copy of the District's rates and charges shall be kept open to the public for inspection at the office of the District.
- 12. No person or customer shall discharge or cause to be discharged into the sewer system any harmful waters or waste, whether liquid, solid, or gas capable of causing obstruction to the flows and sewers, damage or hazard to structures, equipment and personnel of the District or other interferences with the proper operation of the sanitary sewer collection and treatment system. Any customer or individual who discharges or causes to be discharged any harmful waters or waste into the sewer system shall be liable for any and all damages resulting therefrom.
- 13. The District reserves the right to restrict any customer from discharging any harmful substances into the sanitary sewer treatment system. The District reserves the right to require any customer intending to discharge any chemical, substance or other material into the sanitary sewer system which the District reasonably believes may cause harm or damage to the sanitary sewer treatment and collection system to provide reasonable safeguards to prevent such discharge to occur.

- 14. The District reserves the right to require that any customer discharging industrial waste into the sewer treatment system shall install and maintain at the customer's expense a suitable control manhole in the sewer service line to facilitate observation, sampling and measurement of such industrial waste. All measurements, tests and analysis of the characteristics of waters and waste shall be determined in accordance with all then existing federal, state and local rules, laws and regulations.
- 15. No persons or customers shall maliciously, willfully or negligently break, damage, destroy, uncover, deface or tamper with any structure, appurtenance or equipment which is part of the District's system. Any person violating this provision shall be subject to immediate discontinuation of sewer service and subject to any and all other rules, laws or regulations then in effect.
- 16. Any customer intending to extend sanitary sewer lines for the purpose of providing sanitary sewer service to an individual customer shall be installed at the customer's sole cost and expense and in conformity with all existing construction plans and specifications of the District and/or any and all other regulatory agencies.
- 17. Any customer intending to extend the District's sanitary transmission or collection lines to provide service to an individual customer shall meet all of the District's designated standards, plans and specifications. All work to be performed by a customer shall be pre-approved by the District in writing. The customer shall also be required to comply with any and all other plans, specifications, rules and regulations which may be in effect at and enforced by any state, federal, local or other agency having jurisdiction over the work to be performed.
- 18. All meters, service connections and other equipment furnished by the District to the customer shall be and remain the property of the District.
- 19. Sewer service must not be used in such a manner so as to cause unusual fluctuations or disturbances to the District's system. The District may require an applicant or customer, at its sole cost and expense, to install suitable apparatus which will reasonably limit such fluctuations.

II. METER FOR SEWER BILLING

- 1. All sewer discharged into the District's sewer system shall be billed at the sewer rate as approved be the Public Service Commission based on the gallons of water provided through the water meter of the customer.
- 2. When two or more water meters service a single customer, the sewer bill shall be based on the combined volume of water used through all meters.

III. WASTE WATER VOLUME ADJUSTMENT

- 1. A wastewater adjustment of the volume billed for residential and commercial buildings may be made upon the customer's request whenever a leak occurs provided the following conditions are met:
 - A. The customer requests the adjustment within two months from the time the customer is billed for water usage.
 - B. The adjustment will be made considering an average of the three months previous billing. In cases where there is not three months previous billing to average the bill, it may be adjusted utilizing an average of future consumption.
 - C. One month's bill is all that will be eligible to be adjusted per calendar year.
 - D. The customer pays the service investigation charge wherein verification is made that a leak has been repaired and the water did not go into the sewer system.

2. When a yard is to be sprinkled with water on a regular basis, the customer shall make application for a separate water meter to be utilized for this purpose. This meter will not have any plumbing connected to the wastewater system and will not be billed for wastewater charges.

A wastewater adjustment of the volume billed for residential customers may be made upon the customer's request whenever water is used for temporarily sprinkling yards provided the following conditions are met:

- A. The customer requests the adjustment within two months from the time the customer is billed for the water usage.
- B. The bill has increased above the past three months average prior to sprinkling by at least 10,000 gallons. In cases of a new home with no occupancy and there is not three months usage to average the bill, it may be adjusted utilizing an estimated usage of 2,000 gallons. In a newly occupied home, the bill may be adjusted utilizing an average of future consumption.
- C. The customer pays the service investigation charge for each monthly adjustment wherein verification is made that water has been used for sprinkling the yard and the water did not go into the sewer system.
- D. Adjustments of this type shall be limited to three months per year.

IV. DEPOSIT

- 1. A deposit or suitable guarantee equal to approximately twice the District's average monthly sanitary sewer treatment bill will be required of each classification of customer before sewer service is supplied.
- 2. Service will be refused or discontinued for failure to pay the requested deposit.
- 3. The District may require an additional deposit over and above the initial deposit if a customer's classification of service changes or if there is a substantial change in usage. Upon termination of services, the deposit and any interest earned will be credited to the sewer bill owed to the District by the customer with any remainder refunded to the customer.
- 4. Interest will accrue on all deposits at the rate prescribed by law beginning on the date of the deposit. Interest accrued will be refunded to the customer or credited to the customer's bill on an annual basis. In situations where a customer leaves the system with less than one year's service, since beginning service or since the customer's last interest payment date, interest will be refunded or credited to the customer on a prorated basis.

V. CHARGES FOR NON-RECURRING SERVICES

- A charge of \$35.00 shall be made for all service connections made during regular 1. working hours except there shall be no connection charge made for service on the original installation of facilities. If service is reconnected other than during regular working hours, the charge shall be \$95.00.
- A charge of \$35.00 shall be made for a trip to collect a delinquent account or 2. terminate service. When a customer's service has been discontinued for nonpayment of bills and the delinquent customer has paid his or her outstanding bill for service and requested reconnection, the District shall assess a service connection charge in addition to a delinquent service charge to re-establish sewer service.
- 3. A charge of \$35.00 shall be made for service investigation during regular working hours if interruption of service or service problem is associated with the customer's own plumbing facility and beyond the District's delivery point and is not caused by a failure of District facilities. The charge for investigation after working hours will be \$75.00 per trip. Any maintenance and repair of facilities beyond District's delivery point is the responsibility of the customer.
- 4. When an investigation of facilities on customer's premises reveals an unauthorized use of a sewer system, an investigation fee of \$75.00 shall be charged. The actual cost of repairing damage and correcting the improper service connection, if any, shall be charged and the customer's bill shall be paid for the amount of service rendered.
- When a check is accepted for payment of a bill and the check is not honored by the 5. financial institution, a return check charge of \$35.00 shall be charged.
- 6. A charge of \$50.00 shall be made to inspect a customer's service line from the point of use by the customer to the District's point of acceptance of waste. The service line inspection charge may be waived if confirmation is received from the Kentucky State Plumbing Inspector that a State Plumbing Permit has been obtained and the State Plumbing Inspector will inspect the service line.

VI. USAGE PROVIDED FROM A SEWER CONNECTION

- 1. No more than one residence, including mobile homes, may be connected to one service connection.
- A residence and any agricultural usage (with the exception of usage by a tenant dwelling or rental dwelling) may be supplied from the same water meter and sewer connection. A tenant dwelling or rental dwelling is considered a separate residence and must be supplied from a separate sewer connection.
- 3. Where multiple apartment buildings under separate roofs are built on the same lot, each building must have one sewer connection and pay the appropriate connection fees for each. However, at the discretion of the property owner, each apartment within a building may have separate sewer connections. At the discretion of the property owner, one sewer service line may service more than one building on the same lot but should the apartment complex cease to be operated as one entity, the owner of each new lot shall install a separate sewer service line from the sewer service connection on the District's sewer to the point of discharge at each apartment building.
- 4. Each commercial, industrial, or other entity must have a separate sewer connection. Excluding residential apartment complexes where a commercial, industrial or other entity involves more than one structure on a single lot which will be operated as one entity under one entity name, such property can be serviced by one sewer connection.

Should such property cease to be operated as one entity, the District will require that separate sewer connections be paid for by the owner of each lot and the service lines from the sewer connections to the point of use and discharge be installed and paid for by the respective property owners.

- 5. Where multiple residential, commercial, industrial or other service units are under one roof, one sewer connection and service line are all that is required. If the property owner desires more than one sewer connection, pays the appropriate sewer connection fees and complies with the District's rules and regulations pertaining to application of service, additional connections may be provided.
- 6. Mobile home parks on a single parcel of land approved by the Grant County Planning Commission which serves two or more mobile homes, each individual mobile home shall be serviced by separate sewer connection.

VII. STATE OR COUNTY RESOLUTION OR ORDINANCE REQUIRING CONNECTION TO SEWER

Any city or county resolution or ordinance pertaining to the requirement that all homes, businesses or other establishments within the territory limits of the District who have sewer service available as defined in the city or county resolution or ordinance shall become sewer customers of the District and connect to the sewer system. Such customer shall be liable to the District for the District's connection fee and monthly bill as set forth in the District's Tariff as approved by the Public Service Commission.

VIII. MAINTENANCE OF CUSTOMER SEWER SERVICE LINE

All costs and expenses incident to the maintenance of the customer sewer service line shall be borne by the property owner to include removal of any obstructions except where it can be shown to the satisfaction of the District that the sewer service line has physically collapsed between where the customer's service line terminates and the District's sanitary sewer main. The cost and expense of repairing the collapsed sewer service line between where the customer's sewer line terminates and the District sanitary sewer main will be borne by the District.

IX. SEWER BILLING BASED ON GALLONS OF WATER USED THROUGH WATER METER

All sewage discharge into the District's sewer system shall be billed on the sewer rate as approved by the Public Service Commission based on the gallons of water provided through the water meter.

X. CREDIT CARD/DEBIT CARD PAYMENT POLICY

Any obligation owed to the District by any Customer may satisfy such payment with a valid credit card/debit card. Obligations which may be satisfied by credit card/debit card payment shall include but not be limited to regular service charges; tap-in fees; deposits; service connection fees; account termination fees; re-connect fees; surcharge payments (if applicable); and any other non-recurring fee or charge assessed by the District. Credit card/debit card payments shall be subject to the following conditions:

- (a) Only Visa, MasterCard, and Discover Card debit/credit cards may be used.
- (b) The customer must comply with all rules and regulations of the customers issuing credit card/debit card company.
- (c) Any service fee assessed by the District's processing agent shall be assumed by the District.
- (d) The customer may make a credit card/debit card payment at the District office, 1 Farrell Drive, Crittenden, Kentucky 41030.
- (e) If on the date that any obligation due the District is made and payment of that obligation is made by credit card/debit card and the credit card/debit card is declined for any reason, the obligation to the District shall still be due and owing on that date and will be considered late if not paid when due. All late charges and penalties will be applied to any obligation if not paid on time. If a customer is attempting to pay a reconnection fee by credit card/debit card and such payment is denied, the same rules shall apply as provided by the District in its then approved Tariff.
